DIGITAL COMPLAINT DRAFT

(Auto-Generated with Victim Assistance AI)

1. Complainant Details
(Auto-filled / Optional fields to protect privacy)

Name: priyadharshani
Age: [Age]
Gender: Female
Contact Number: [Optional]
Email ID: nandy32005@gmail.com
Relationship to Suspect: unknown

Note: The complainant requests confidentiality under applicable laws.

2. Nature of the Complaint

Category: Cyber Crime – Digital Abuse / Defamation / Harassment
Sub-Category: Non-Consensual Deepfake / Morphed Image Circulation

3. Incident Summary (Plain-Language Narrative)

I, the undersigned, wish to bring to your notice that I have been subjected to severe digital harassment through the creation and circulation of non-consensual morphed / deepfake images depicting me in a compromising and fabricated manner.

Description: This image was discovered on a social media platform on 22 January 2026. It appears to be a digitally morphed image using my original photograph without my consent. The image misrepresents my identity and has been shared publicly, causing emotional distress and reputational harm. The original version of the image is also available with me for comparison.

Impact on Complainant: Reputational harm

4. Timeline of Events

Date of First Discovery: 2026-01-06
Approximate Time: [HH:MM AM/PM]

How the Content Was Discovered:
 Discovered on whatsapp

5. Platforms Where Content Was Shared / Detected

Platform(s) Identified: whatsapp
(Some platforms or accounts may be unidentified at this stage.)

6. Impact on the Victim

• Severe psychological distress and anxiety
• Fear of social judgment and harassment
• Damage to personal dignity and reputation
• Constant fear of further circulation

The continued existence of such content online poses an ongoing threat to my safety and mental well-

being.

7. Evidence Submitted
(Digitally Preserved with Metadata Integrity)

• Image(s): Suspected deepfake / morphed visuals
• Digital Hash (SHA-256/Integrity Key):
cb0c5a6d6384b544bb8887ca0dc3de17216c06c28b45cfa8c593a49bcd3751b0
• Evidence Storage: AES-256 Encrypted in Digital Dignity Forensic Vault
• Submitter Verified: Nandini (nandy32005@gmail.com)

AI Analysis Summary:
- Pronounced facial structural differences (jawline, nose geometry, eye set).
- Presence of a prominent mustache in 'SUSPECT' subject, entirely absent in 'REFERENCE' subject.
- Distinct differences in overall facial proportions and bone structure.

All evidence has been preserved using cryptographic hashing and industry-standard encryption to maintain chain-of-custody integrity.

8. Suspected Offender Details (If Known)

Username / Handle: [If available]
Relationship: [Known / Unknown]
(The complainant seeks assistance in tracing the source of origin.)

9. Legal Provisions Invoked (Indicative)

IT Act, 2000:
• Section 66E – Violation of Privacy
• Section 67 / 67A – Publishing Obscene Content

Bharatiya Nyaya Sanhita (BNS):
• Defamation
• Criminal Intimidation
• Outraging Modesty of a Woman

10. Relief Sought

• Register this complaint and initiate investigation
• Trace and identify the source of content creation and circulation
• Issue takedown notices to relevant platforms
• Take appropriate legal action against the offender(s)

11. Declaration

I hereby declare that the information provided above is true to the best of my knowledge and belief. This document is generated with the assistance of an AI-based victim support system and is intended to facilitate lawful reporting.
